## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 15-20, drawn to a method of making a plant lipoxygenase with altered position specificity.

Group II, claim(s) 21-25, drawn to a lipoxygenase.

Group III, claim(s) 26-30, drawn to an isolated nucleic acid encoding a lipoxygenase.

Group IV, claim(s) 31-40, drawn to a cell or plant comprising an isolated nucleic acid encoding a lipoxygenase.

Group V, claim(s) 41-45, drawn to a method comprising incubating gamma linolenic acid with lipoxygenase.

Group VI, claim(s) 46, drawn to a derivative of gamma linolenic acid.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: LOX with altered positional specificity were known, as evidenced in the specification at page 1. Therefore, there is no special technical feature linking the claimed inventions. Furthermore, the inventions of Groups II-IV and VI are distinct products that differ chemically, structurally and functionally; and the methods of Groups I and V are distinct methods requiring different components, different method steps and resulting in different products.
-

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth F. McElwain whose telephone number is 703-308-1794. The examiner can normally be reached on increased flex time.
